## Education and Training

- November 2007 – April 2011: Ph.D in Information and Communication Technologies – Computer Science area (Data and Knowledge Management), University of Trento, affiliation DKM and eHealth research unit of Fondazione Bruno Kessler (FBK), Povo, Trento (Italy).  
Ph.D Thesis focused on the creation of: “*A Lexical-ontological Resource for Consumer-oriented Healthcare*”.  
Main exams taken during the Ph.D: Knowledge Representation and Formal Ontologies; Language Resources and Ontologies; Text Processing II; Advanced Data Mining; Foundations of Conceptual Modelling and Ontological Analysis; Technical English.  
Ph.D thesis’ defense given on April 19, 2011.
- February 2005 - February 2007: Master Degree in “Informatica per le Discipline Umanistiche” (Digital Humanities), focusing area “Knowledge Management”, University of Calabria (Italy).  
Thesis title: “*A semantic IntraWeb for Knowledge Management in complex public organizations: The Italian National Council case study*”.  
Main exams: Documentation and Library Science, Digital Archives, Hypermedia Systems and Information Retrieval, Web and Text Mining, Formal Languages Theory, Markup Languages and Text Encodings; Semantics and Linguistics, Classification and Indexing Systems; Knowledge Management and Representation.  
Final mark 110/110 Magna cum laude, February 23, 2007.
- November 2011 – July 2004: Bachelor’s degree in “Mediazione Linguistica” (Linguistic Mediation), focusing area: “tourism and culture”, University of Calabria (Italy).  
Main Exams: Archives and Digital Libraries; Documentation; Linguistics; Phonetics; English language and Translation; German literature and language; Arabic culture and language.  
Final Mark: 110/110 Magna cum laude, July 22, 2004.

## Training Courses and Summer Schools:

- 20 - 24 January 2014: LOT Winter School 2014: courses on Semantics and “Intro/State of the art Computational Linguistics”, at VU University Amsterdam, the Netherlands;
- 08 July – 16 September 2013: course on “Project Management”, at Fondazione Bruno Kessler, Povo, Trento, Italy;
- 20 - 31 July 2009: 21<sup>st</sup> European Summer School in Logic, Language and Information, (ESSLLI09), Bordeaux – France. Main courses: Logic and Language, Computational Linguistics, Knowledge representation languages; Ontology Modelling.

- November 2008: Training course of the software “PCPACK5 - *Knowledge tools designed to support the acquisition and use of knowledge*”, organized by the English company *Epistemics*, at the University of Calabria.
- 6 - 12 July 2008: 6<sup>th</sup> Summer School on “Ontological Engineering and Semantic Web” (SSSW08), Cercedilla – Spain. Main courses: Semantic Web technologies overview; OWL – the Web Ontology Language; Knowledge Base design and conceptualization; Ontology Engineering; Ontology Matching and Alignment; Human Language Technology and Machine Learning for Semantic Web; Semantic Web Services.
- 8 - 30 August 2007: Intensive course of French, at CLA - Centre de Linguistique Appliquée, Université de Franche-Comté de Besançon - France. Acquired level B1.

## Research Interests

Knowledge acquisition, management and representation; Ontology Engineering and Semantic Web applied to Healthcare; Medical Terminology Integration, Classification Systems, Consumer Healthcare, Information Extraction; Analysis of medical terminology: technical medical lexicon vs consumer-oriented lexicon, creation of dictionaries and thesauri for Healthcare.

## Professional and Academic Experience

### Positions held

- November 2013 – Present: Researcher at the Institute for Informatics and Telematics (IIT), Italian National Council of Research (CNR), Rende (CS), Italy. Research activity focused on the creation of metadata models, authority lists and ontologies for the description and indexing of federated digital library entities (i.e. information objects, agents, events) .
- May 2011 – November 2013: Researcher at e-Health Unit, Fondazione Bruno Kessler, Povo (TN), Italy. Research activity focused on methodologies for the creation, formalization and integration of medical terminologies, ontologies and classification systems, used in healthcare applications or Information Systems devoted to healthcare consumers as well as to healthcare professionals, using Semantic Web Technologies and tools.

September 2011 – June 2012: Collaboration activity to the Project OpenInFSE (Evoluzione e interoperabilità tecnologica del Fascicolo Sanitario Elettronico), with the UOS-IIT CNR “Sistemi di Indicizzazione e Classificazione”, Rende, Cosenza. Research activity focused on the analysis of the use of medical coding systems for the primary care domain, in the Italian regions that participated at the experimentation of the FSE (Fascicolo Sanitario Elettronico) and in the Autonomous Province of Trento, with the aim of integrating the used coding systems and proposing a new reference terminology for the access to FSE by consumers and general practitioners.

- January 2010 – March 2011: Collaboration activity to the Italian National Project “Fascicolo Sanitario Elettronico” (FSE) for the creation of a national unified Electronic Health Record for patient’s process of care, coordinated by URT - CNR “Classification and Indexing Systems”, in Rende (CS). Research activity devoted to the development of a standardized methodology for Patient healthcare data pseudonymization (segmentation) in the context of the unified Electronic Health Record (FSE).
- November 2007 – April 2011: Research consultant at the eHealth research unit of FBK (Trento), for the creation of the Italian Consumer-oriented Medical Vocabulary (ICMV), activity integrated in the Regional Project “TreC” (Cartella Clinica del Cittadino), aimed at the creation of a Personal Health Record for the Province of Trento. The creation of ICMV was also one of the tasks of the Ph.D activity.
- July 2007 - July 2008: Research consultant at LABDOC research group, Department of Linguistics, University of Calabria (Italy). Research activity was focused on the creation of a Multilingual Thesaurus for the Handicraft domain, aiming at the resolution of specific problems related to Knowledge Management for the specific field.

- May - July 2007: Research consultant at the Human Languages and Technologies (HLT) Unit of FBK (Trento), joint with the Italian National Council of Research (CNR). Research activity here was focused on the development of a Geographic Ontology for the Province of Trento.

### Stages and Scientific visits

- 07 – 14 July 2012: Visiting at the Heymans Institute of Pharmacology, University of Ghent, Belgium. Visiting focused on the study of ISO 16642:2006 Terminology Markup Framework (TMF), ISO-24613:2008 Lexical Markup Framework, e ISO 12620 plus ISOCat data category registry, and on the formalization of their meta-models in OWL (Ontology Web Language).
- 10-18 July 2011: Visiting at the Heymans Institute of Pharmacology, University of Ghent, Belgium. Visiting focused on the study of new methodologies for the creation of multilingual terminologies for the primary care domain and for the Belgian context, devoted both to healthcare consumers and to physicians and available as Linked Data.
- April – July 2010: Fellowship at the National Library of Medicine (NLM –NIH) – Lister Hill Center for Biomedical Communication, Bethesda (MD), USA. Research activity was focused on the creation of an integration framework for consumer-oriented healthcare terminologies and UMLS vocabularies by using Semantic Web technologies (RDF/OWL and SPARQL queries) to extract semantic mappings between the terminologies taken into account.
- November 2006 - April 2007, Italian National Research Council (CNR), Rome – SeGiD group and ISTC Institute, where I carried out my Master Thesis. Research activity was focused on a project proposed by the ISTC-CNR, in the field of Ontologies and Semantic Web, with the specific aim of the development of a Semantic IntraWeb for CNR Knowledge representation, and the general aim of the creation of a Collaborative Semantic Web Layer to enhance Legacy Systems.

#### **Invited Talks/Seminars:**

1. Invited talk: "Integrating consumer-oriented vocabularies with selected UMLS ones through ICPC2 and Semantic Web Technologies", 40th WICC Annual Meeting, Ravello, Italy, 30 Ottobre 2012.

2. Invited talk: "Utilizzo dei sistemi di codifica ICPC2 e ICD9-CM per le cure primarie: il caso di studio trentino", 3rd Italian Congress on the International Classification of Primary Care, Valmadrera – Lecco, Italy, 15-16 September, 2012.
3. Seminar: "Data and Knowledge Engineering for Healthcare", at Faculty of Computer Science and Technologies - Free University of Bozen, Bolzano, 15 February, 2012.
4. Invited Talk: "A Lexi-ontological Resource for Consumer-oriented Healthcare", at the LT3 - Language and Translation Technology Team", University of Ghent; Ghent (Belgium), 12 July, 2011.
5. Invited talk: "ICPC attraverso l'Europa: similitudini e differenze in Italia, Malta e Olanda", 2<sup>nd</sup> Italian Congress on the International Classification of Primary Care; Ferrara (FE), Italy, 22-23 October, 2011.
6. Invited talk: "ICPC2 per l'integrazione semantica tra vocabolari medici comuni e sistemi di codifica medica in UMLS", 1<sup>st</sup> Italian Congress on the International Classification of Primary Care; Pontecchio Polesine (RO), Italy, 2-3 July, 2011.
7. Seminar: "Integrating consumer-oriented vocabulary with selected ones in UMLS using Semantic Web Technologies", at National Library of Medicine (NLM NIH), Bethesda (MD), USA, 28 June, 2010.
8. Seminar: "From thesaurus to ontology: the TERMINAE methodology", at Fondazione Bruno Kessler, Povo (TN), 26 January, 2010.

#### **Awards:**

1. M. Warnier, J. Roumier, E. Cardillo, R. Vander Stichele, M. Jamouille, Meriterm Heart Failure Multilingual Terminology. Runner- up award at the Monnet Challenge Programme for Linked Data publication on the web, 2012.
2. National Library of Medicine Award for contributions given during my appointment to the NLM Research Participation Program, Lister Hill Center NLM – NIH, Bethesda (MD).
